(Mr. Antonio Almeida, Appellant)

(Board of Adjustment hearing held September 11, 1991)

(Transcript filed December 18, 1991)

The Board of Adjustment at its regular meeting held September 11, 1991, approved the application by 6 ayes and 1 nay.

An appeal in this matter was filed in the Office of the City Clerk on December 18, 1991, by Mr. Antonio Almeida.

The transcript in connection with this matter was received December 31, 1991, and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On January 2, 1992, the City Clerk notified the applicant, the applicant's attorney, the appellant's attorney, the appellants and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting January 22, 1992, at 8:00 P.M., in the Council Chamber, Second Floor, City Hall, Newark.

January 22, 1992

President Tucker stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment In the Matter of Application of Agnes Smith, Applicant, and Geraldine Russomano, Owner, for variance to permit in a Third Residence Zone, which does not permit rooming or boarding houses, conversion of a medical office and residence to a senior citizen's group home with insufficient side and rear yards and insufficient on-site parking, on premises 212 Clifton Avenue, Newark, New Jersey; 32 parking spaces required and only 4 provided. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and place for the appeal to commence.

MR. STEVEN GREENBERG, ATTORNEY, 155 PROSPECT AVENUE, WEST ORANGE, NEW JERSEY, addressed the Members of the Municipal Council on behalf of the appellant opposing this application.

MR. AMEL RESTAINO, ATTORNEY, addressed the Members of the Municipal Council on behalf of the applicant requesting the approval of this application.

Council Member Carrino read the following: "On September 11, 1991, the Board of Adjustment by a 6-1 vote granted a use variance and insufficient side and rear yard variance and an insufficient on-site parking variance.

This property is located in a Third Residence District.

A hearing was held on the application for the variance by the Board of Adjustment. The applicant, Agnes Smith, was present and represented by William Agrait, Esq.

There were several objectors with two of the objectors testifying before the Board of Adjustment. Objecting testimony was given by Mr. Sarno and Mr. Almeida. I might add that the meeting that took place in the neighborhood consisted of over 60 people. That meeting started off as a block watcher group which meets every 30 days, and because the letter from the Board of Adjustment was sent out during that time period, when I went to the meeting to discuss the police problems from the block watchers, this situation was brought up. So that was not a meeting that was called for the variance, but a meeting that was called for the block watchers. Whoever was there just happened to be there, and as I said, there were over 60 homeowners there that evening.

After all the testimony was presented on September 11, 1991, the application to permit in a Third Residence District conversion of an existing medical office and residence to a senior citizen's group home with insufficient side and rear yards and insufficient on-site parking on the premises located at 212 Clifton Avenue was approved and the Board of Adjustment adopted a memorializing resolution to that effect dated September 25, 1991.

The decision was based on the following factual findings:

(1) This lot is 100 feet by 46.25 feet in size, and on it is located a 2½ story frame building used as a medical office and residence. The area within the 200 feet radius is composed mainly of residential uses and a hospital.

(2) People would be over 62 years of age.

(3) There would be approximately three people working.

(4) Vans are to be parked in the garage.

(5) The maximum number of people who are between home and nursing home to be housed is 15 to 20.

- (6) There is a need for senior citizen housing in the City.
- (7) The seniors housed in that building will not have automobiles.
- (8) If property were used as permitted, more traffic and people would be generated.

The Board further determined, and that means, Mr. President, that if that was a three-family house, we couldn't determine if the people living in a three-family house had ten cars or nine cars or 15 cars, depending on the number of children who would be housed in a three-family house. The Board further determined that the relief requested by the applicant can be granted without substantially impairing the intent and purpose of the Zone Plan and the Zoning Ordinances of the City of Newark based on the following reasons:

- (1) The grant of the variance to this inherently beneficial use would provide benefits to seniors and;
- (2) The agreed upon limitations will protect the surroundings.

Under the present law the City Council, as the governing body, has the authority to make a de novo review of the record established before the Board of Adjustment and reach its own decision in this matter, subject only to the requirement that its findings and conclusions are supported by the record. *Kessler vs. Bowker*, 174 N.J. Super 478 (A.D. 1979). The Council is directly responsible to the citizenry and has the right to apply its own expertise and knowledge of the community and make a final evaluation based on the record created before the Board of Adjustment. Thus, the Council may reverse, remand or affirm, wholly or in part, or may modify the final decision of the Board.

Applying this standard here, the Council has reviewed the transcript of the hearing before the Board of Adjustment and makes the following determinations:

- (1) I would like as a Council Member to support the Board's conclusion granting the requested variances.
- (2) Objectors to the application were (a) against the possibility of creating parking congestion; (b) against the possibility of saturating the area with rooming houses and (c) the absence of any special reason for granting the variance.
- (3) The testimony revealed that the applicants/owner are suffering a hardship due to the inability to sell the property coupled with the documented social need for senior citizen housing and thus satisfying the requirement for a special reason.
- (4) The applicant stipulated that she would agree to all conditions by the Board of Adjustment, and Mr. President, those conditions were drawn up by the people who live in the neighborhood. That no seniors would be allowed an automobile if they were to be housed in that building. There would be no parking in the driveway. There would be on-site supervision. Everyone housed in the building would have to be 62 or over, and there would be no more than 20 people housed in the building."

A motion to affirm the decision of the Board of Adjustment was made by Council Member Carrino, seconded by Council Member Grant and declared adopted by President Tucker by the following votes:

Yes: Council Members Bradley, Branch, Carrino, Grant, Harris, Martinez, Rice, President Tucker.
Absent: Council Member Villani.

City Clerk Marasco read the following letter from Mayor James:

"Please inform the Honorable Members of the Newark Municipal Council that included in the budgetary amendments the administration sends to the governing body will be a proposal to provide \$300,000 to the Newark Public Library.

February 5, 1992

I met previously today with Dr. Alex Boyd, director of the Library, and informed him that I would be making such a proposal in the hope that he would see fit to allow the three neighborhood libraries slated for closure this Friday to remain open, while at the same time using \$75,000 of the proposed increase to provide additional books to each of these facilities. Dr. Boyd indicated that he would be willing to go along with my request should the Council reinstate the necessary funds.

At the same time, I intend to appoint a task force within the next 10 days to study the economic viability of maintaining an 11-branch library in light of Newark's population decrease. I would hope that there will be no shutdown of neighborhood libraries until we receive the task force's recommendations on its findings.

The James administration's goal, one that I believe is shared with the City Council, is to provide the same level of library service to each of Newark's five wards. It is up to the task force to determine whether the East and Central Wards, which each have only one library branch, receive the same services as the North, West and South Wards, each of which has three neighborhood facilities.

I appreciate your assistance in notifying the members of the governing body of my intentions."

City Clerk Marasco also read the following letter in response, from Council President Tucker:

"On behalf of the Members of the Municipal Council, I would like to thank you for your commitment to include an additional \$300,000.00 in the 1992 budget amendments for the Newark Public Library. This funding will prevent the closing of the three neighborhood library branches at Clinton Avenue, First Avenue and Mt. Vernon School. The Council Members have indicated their willingness and desire to appropriate these additional funds with the understanding that Dr. Boyd will maintain all of the branch libraries throughout the 1992 budget year.

Your decision to appoint a task force within the next ten days to study the economic viability of maintaining an 11 branch library in light of Newark's population decrease, is to be commended. In this regard, the Municipal Council respectfully requests that you appoint a representative of the Governing body to said task force.

Your favorable consideration and expeditious response regarding this matter is very much appreciated."

Council Member Rice, through the Chair, directed the City Clerk to communicate with Dr. Alex Boyd, Director, Newark Public Library, requesting a listing of all buildings and land owned by the Library and when and how they were acquired.

(B). A person commits a disorderly persons offense if he/she loiters in a public place in a manner and under circumstances manifesting the purpose of using, distributing or dispensing a controlled dangerous substance or controlled substance analog.

STATEMENT: This ordinance deletes Namibia from the City of Newark's disinvestment sanctions against the Republic of South Africa.

May 20, 1992

City Clerk Marasco read the following:

Mr. President, with regard to Ordinance 6-Ph. S & F-f, the anti-apartheid ordinance revision, please be advised this ordinance excludes all references to Namibia, which gained its independence from the Republic of South Africa on March 21, 1990. The Council has been in receipt of correspondence from such organizations as the United States Department of State, the United States Embassy in Windhoek, Namibia, the Embassy of the Republic of Namibia, the Africa Fund, the Investor Responsibility Research Center and the Lawyers' Committee For Civil Rights Under Law, all urging the City of Newark to amend its local divestment ordinance against the Republic of South Africa by excluding the independent nation of Namibia therefrom. According to information received by the United States Department of State, the city of Newark as one of 18 cities which continued to apply sanctions against corporations and financial institutions doing business in Namibia and South Africa which were imposed when Namibia was administered by the Republic of South Africa. Act of 1986, were applied to Namibia only as long as it was a non-self-governing territory unlawfully occupied and administered by South Africa. Since Namibia's independence on March 21 1990, all federal sanctions imposed against Namibia were terminated. The United States has since established relations with Namibia's democratically elected government and opened an Embassy in Windhoek on Namibia's Independence Day. Namibia established an Embassy in Washington in October, 1990. Since then, the United States has extended Most Favored Nation status to Namibia, has concluded a bilateral investment guarantee agreement, granted Generalized System of Preferences benefits to imports from Namibia and is reviewing other measures to facilitate trade and investment. The U S. Department of State now encourages state and local governments to lift their sanctions against Namibia to help promote trade and investment with the American business community while it struggles to build a democratic society. The aforementioned ordinance adheres to this request, while maintaining local sanctions against the Republic of South Africa.

President Tucker called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MR. DUMISANI KUMALO, AFRICA FUND, 198 BROADWAY, NEW YORK, NEW YORK, addressed the Members of the Municipal Council supporting the passage of this ordinance.

No one else appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by President Tucker, seconded by Council Member Harris and declared adopted by President Tucker by the following votes:

President Tucker called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

No one appeared.

There was a lengthy discussion held by the Members of the Municipal Council.

President Tucker requested the City Clerk to incorporate into the minutes of this meeting the Mayor's letter of explanation for this ordinance.

Dear Council President Tucker:

The proposed ordinance amending the annual salary for the position of Corporation Counsel to \$80,000 is the result of an agreement negotiated with the successful candidate for that position. The newly appointed Corporation Counsel is temporarily receiving the same salary as the former Corporation Counsel only because the process of amending the salary ordinance could not be completed by her date of appointment.

As you know, during my second term in office, I have endeavored to base the salary of my cabinet members, in part, on meritorious service. The salary for the previous Corporation Counsel had been increased in recognition of his outstanding performance over a number of years in a cabinet-level position. Such performance is further evidenced by his recent appointment as City Business Administrator.

However, although the salary is decreased, this ordinance acknowledges the critical skills essentially attendant to the position of Corporation Counsel by proposing a level of compensation that exceeds the level established for the directors of six other municipal departments.

I trust that the Municipal Council will adopt this ordinance on first reading at its next regularly scheduled meeting.

A motion to close the hearing and adopt the ordinance on second reading and final passage was made by President Tucker, seconded by Council Member Grant and declared adopted by President Tucker by the following votes:

Yes: Council Members Bradley, Branch, Carrino, Grant, Rice, Villani, President Tucker.

No: Council Members Harris, Martinez.

President Tucker: The yeses are seven and the noes are two. This ordinance having been read on two separate days and having achieved the vote required by the statute, is declared adopted. The City Clerk is directed to deliver same to the Mayor for his approval or disapproval.

Section 1. That Section 6 of Ordinance 6-S & F-p adopted September 25, 1990 of Title Twenty-One, Sewer and Sewerage Disposal, Chapter 5 User Charges, Section 3, Rates for Sewer User Charges, of the Revised Ordinances of the City of Newark, New Jersey, (1966) as amended and supplemented be and is hereby repealed in its entirety.

Section 2. Title Twenty-One, Sewer and Sewerage Disposal Chapter 5, User Charges, Section 3, Rates For Sewer User Charges, of the Revised Ordinances of the City of Newark, New Jersey (1966) as amended and supplemented, be and is hereby amended to read in its entirety as follows:

21:5-3. Rates of sewer user charges.

(a) Large scale residential, industrial, commercial, tax abated and tax exempt users. All large scale residential, industrial, commercial, tax abated and tax exempt users of municipal wastewater facilities shall be billed for such use on two bases. For purposes of this ordinance, such users shall be defined as all users identified as such by the regional sewer authority pursuant to the regulations of the United States Environmental Protection Agency, 35.929-1(b)(4).

- (1) Twice a year, each such user shall be billed for its share of the operating and maintenance costs borne by the regional sewer authority in the treatment of wastewater. These billings shall be based on a method of calculation approved by the United States Environmental Protection Agency which shall at a minimum reflect the volume of waste and the strength of that waste as measured by the parameters of biochemical oxygen demand (BOD) and suspended solids (SS) per unit volume. Calculation of the amount to be billed shall be done by the regional sewer authority, who shall present the bills to the City of Newark for distribution and collection of payments. Bills payable pursuant to this subsection shall be presented to the affected users on January 15th and July 15th of each year, or as soon as is practicable thereafter. Such bills shall be due and payable upon presentation.

- (2) In addition to such bills as payable pursuant to subsection (a)(1) of this ordinance, all large scale residential, industrial, commercial, tax abated and tax exempt users shall also be billed periodically for all other costs associated with the collection, transmission and treatment of wastewater.
- (i) As payment for their share of such other costs, such users shall pay a local sewer user charge to be billed at a rate of \$5.10 per 1,000 cubic feet of water supplied by the city.
 - (ii) As an alternative to (i), any such property owner may install metering equipment on his premises to measure the actual flow of sewerage into public wastewater facilities. The responsibility for the purchase, installation, and proper functioning of any such meter shall be that of the property owner. All such meters shall be subject to the approval of the Director of Engineering and shall be maintained in a continuous state of accurate operation by the property owner. The local sewer user charge for property owners who elect direct actual metering shall be \$5.10 per metered 1,000 cubic feet of sewerage.
 - (iii) Property owners who are subject to the terms of this section and who obtain water, either in whole or in part from sources other than the city, shall provide, and maintain at their own expense, water or sewage meters which shall register the total discharge of sewerage to the municipal wastewater facilities. All such installations shall be subject to the approval of the Director of Engineering and shall be maintained by the property owner in a continuous state of accurate operation. The local sewer user charge for these properties shall be \$5.10 per 1,000 cubic feet of metered wastewater discharged to the public sewer, whether or not the water is furnished by the city.
 - (iv) In the event that a property owner who is subject to the terms of this section shall prove to the satisfaction of the Director of Engineering that there is no substantial relation between the intake of water at the property, regardless of its source, and the output of sewage from the property, and if it be determined by Director of Engineering that it is not practicable to measure sewage emanating from the property by meters, then the property owner may elect to pay a user charge based upon engineering studies supported by substantial evidence. All such studies must be approved by the Director of Engineering and shall be subject to his periodic review.

- (v) In no event shall any property owner who is subject to the terms of this section utilizing municipally controlled sewers pay a local sewer user charge of less than \$10.20 per quarter.

(b) In addition to such bills as payable pursuant to subsection 1-a of this ordinance, all large scale residential, industrial, commercial, tax abated and tax exempt users shall also be billed periodically for all other costs associated with the collection, transmission and treatment of waste water.

- (1) As payment for their share of such other costs, such users shall pay a local sewer user charge to be billed for water supplied by the city:

and thereafter

- (2) As an alternative to (1), any such property owner may install metering equipment on his premises to measure the actual flow of sewerage into public wastewater facilities. The responsibility for the purchase, installation and power functioning of any such meter shall be that of the property owner. All such meters shall be subject to the approval of the Director of Engineering and shall be maintained in a continuous state of accurate operation by the property owner. The local sewer user charge for property owners who elect direct actual metering shall be based on 1000 cubic feet of sewerage. The rates shall be:

at a rate of \$9.17 per 1000 cubic feet for 1990;

All such studies must be approved by the Director of Engineering and shall be subject to his periodic review.

 - a rate of \$18.33 per quarter for 1990;
 - a rate of \$20.54 per quarter for 1991;
 - and thereafter
